The on-going moderator’s training sets off the tone in calibrating the moderator’s skills in handling students’ organization. To align with such training, the proponent deemed it necessary that class and organization officers of the Basic Education Department be offered with similar exposures in the hope that they become partners with their advisers in pursuing Vincentian Excellence through Leadership and Organizational Management.

The Leadership Training Seminar is an innovative way to provide also an opportunity for students to inter-act with their fellow student-officers and advisers in a zestful and calm atmosphere geared towards the promotion of student empowerment, volunteerism, teamwork and leadership. This is a two -day activity inclusive of series of talk, indoor games, team building and other fun-filled activities. Processing time is presented after every game to deepen the Vincentian values that are incorporated.
